The AB Power Difference

AB Power are project delivery specialists, with the expertise to provide you with turnkey solutions and ensure seamless execution from start to finish.

Whether you need a temporary power supply for a greenfields project or comprehensive services for large-scale plant construction and ongoing maintenance, AB Power offers a tailored, end-to-end solution designed to meet your unique project requirements efficiently and effectively.

Who We Are

Founded in 2011 with a humble staff of just one, AB Power has steadily expanded over the years, growing into a robust team of 90+ and counting. This impressive growth is a testament to the dedication and expertise the AB Power brings to every project.

Our customer base has grown alongside us, and we now proudly offer a wide range of services to a diverse clientele. From supporting local government initiatives to providing essential services for coal and mineral mining industries, as well as meeting the needs of domestic and industrial clients, AB Power has become a trusted partner throughout central and northern Queensland.

As a company rooted in the community, we take great pride in being a local business. We love Queensland and believe in giving back to the region that has supported our growth. Through sponsorship programs for local sports teams and community events, AB Power is committed to fostering strong connections and contributing to the vibrant life of our communities.

Our Capabilities

Electrical

For over 10 years AB Power Electrical has led the way in the world of mining electrical services, offering reliable electrical installations, shutdowns and maintenance services that keep everything running smoothly.

Generation

Reliability and service are the cornerstone values of AB Power Generation. Our dedicated technicians are ready to respond 24/7, and our industry leading equipment has proven to meet the demands of even the harshest conditions. Whether you hire a 13kVA generator for your lunch room or a 12MVA high voltage power station to run your mine, we're committed to providing peak performance.

- H.V. power: 1000V / 3.3kV / 6.6kV / 11kV / 22kV
- Temporary power solutions: 20kVA-1400kVA
- Rental, purchase or flexible ownership options
- On-site refuelling solutions and management
- Engineering design and remote monitoring
- Power station installation and operation
- Multi-megawatt H.V. power stations
- Purpose-built switch room facilities
- End to end project management
- Contingency power plans
- 24/7 breakdown support
- Contract maintenance

Our Goals

Our People

At AB Power, we truly value the incredible quality and safety benefits that come from retaining long-term employees. We know how important it is to have experienced, safety-conscious team members who share our clients' commitment to safe and productive working environments. That's why we focus on keeping our skilled workforce engaged and thriving. With dedicated resources and innovative strategies, we're committed to maintaining a stable, experienced team that grows alongside our company.

Safety

Safety always comes first at AB Power. Our unwavering commitment to achieving Zero Harm reflects our deep dedication to the wellbeing of our people, the protection of our equipment and safeguarding of the environment. This mission underscores our promise to create a workplace that is not only safe and secure but one where everyone thrives, free from harm.

Integrity

Integrity is a core value at AB Power, guiding us to always deliver on our promises. From the tender phase to project execution and renewal, we remain committed to honesty and transparency with our clients. This ensures our clients can trust us to meet our commitments with unwavering reliability.

Productivity

Our goal is to deliver projects on time and within budget whenever possible. We take pride in getting it right the first time by thoroughly understanding the project scope and the client's desired outcomes before starting any work.

Flexibility

Being flexible at AB Power is the key to how we work. It helps us easily adapt to what our clients need as things change. This flexibility is a big part of our success, making sure we finish projects on time and within budget. By staying in tune with our clients and tweaking our plans as needed, we can better meet their needs.

Cost Management

We focus on managing costs to offer our clients affordable solutions. With our industry experience, we find and use more efficient ways to complete projects, which helps to reduce costs and save money for our clients. As a midsized business, we benefit from lower overhead costs, allowing us to be more cost-efficient. This dedication to managing costs shows our commitment to financial responsibility and makes us a reliable partner for delivering high quality, budget friendly solutions.
